NOTION HOW-TO

How to start a code block with ```

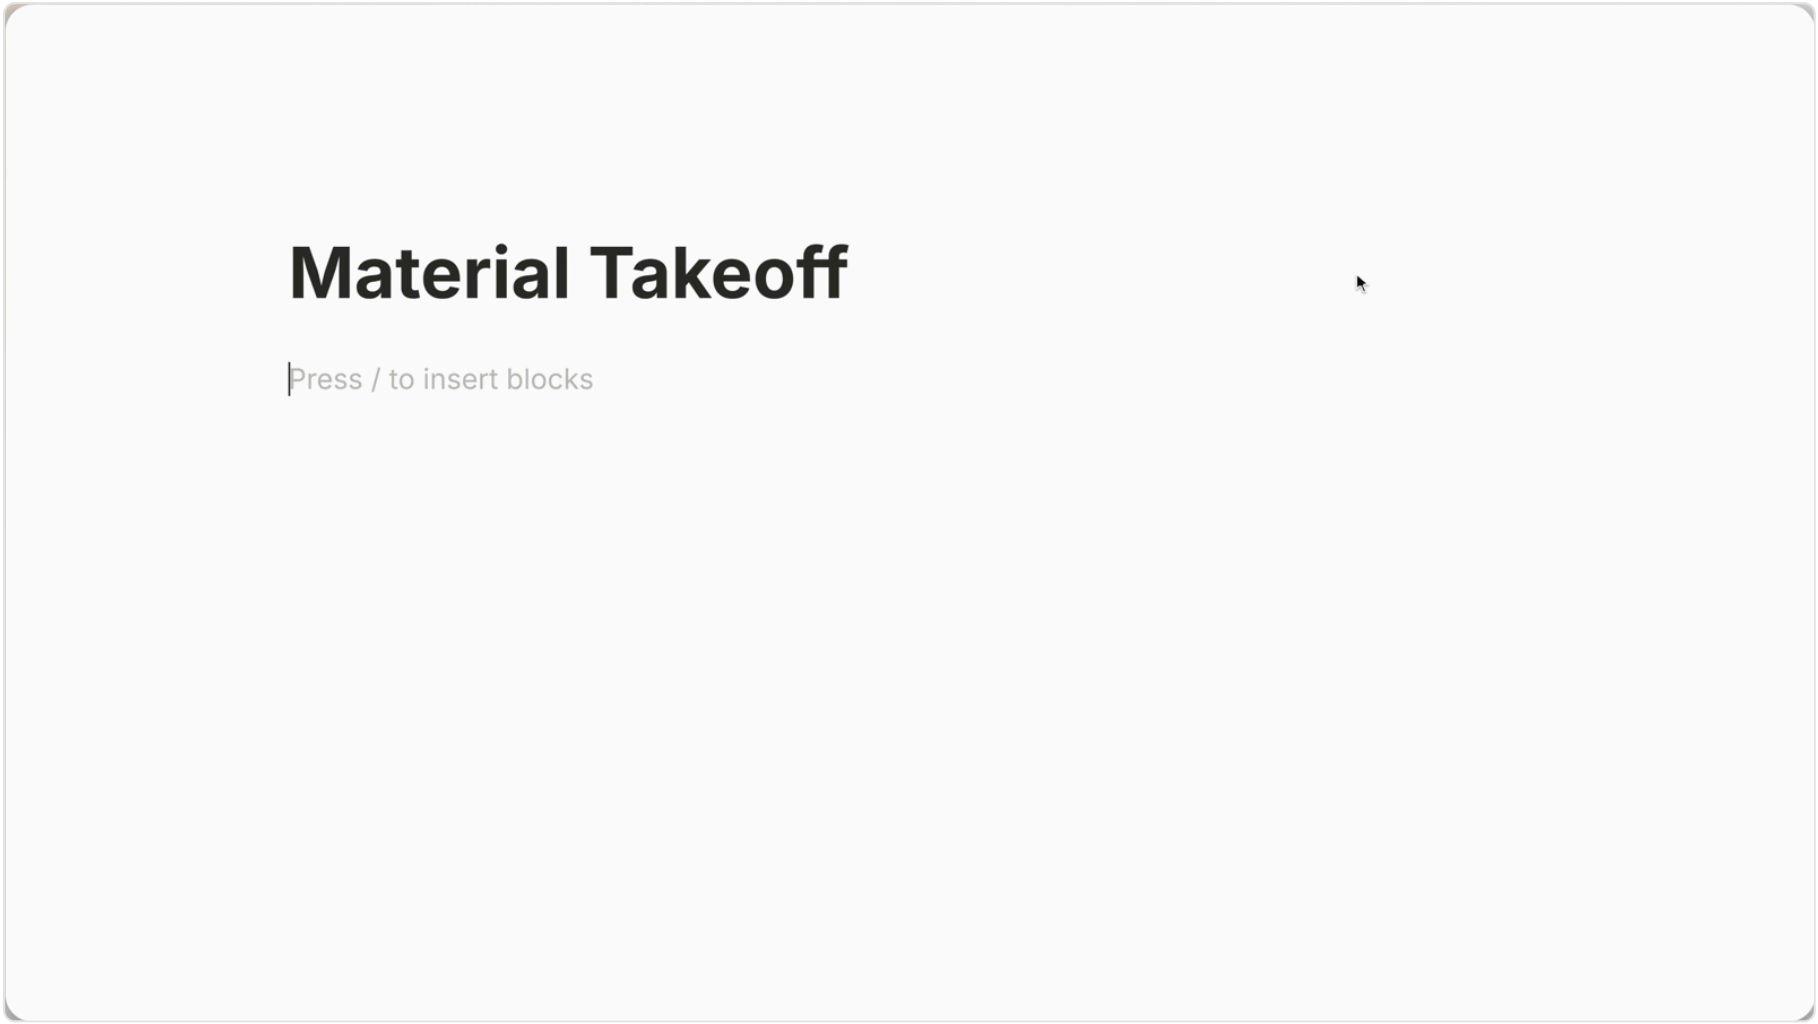

1. Click below the page title
2. Type three backticks
3. Type inside the block

3 steps. Watch the video or a step's GIF for the motion; this guide holds each step's result.

Step 1 of 3

Click below the page title

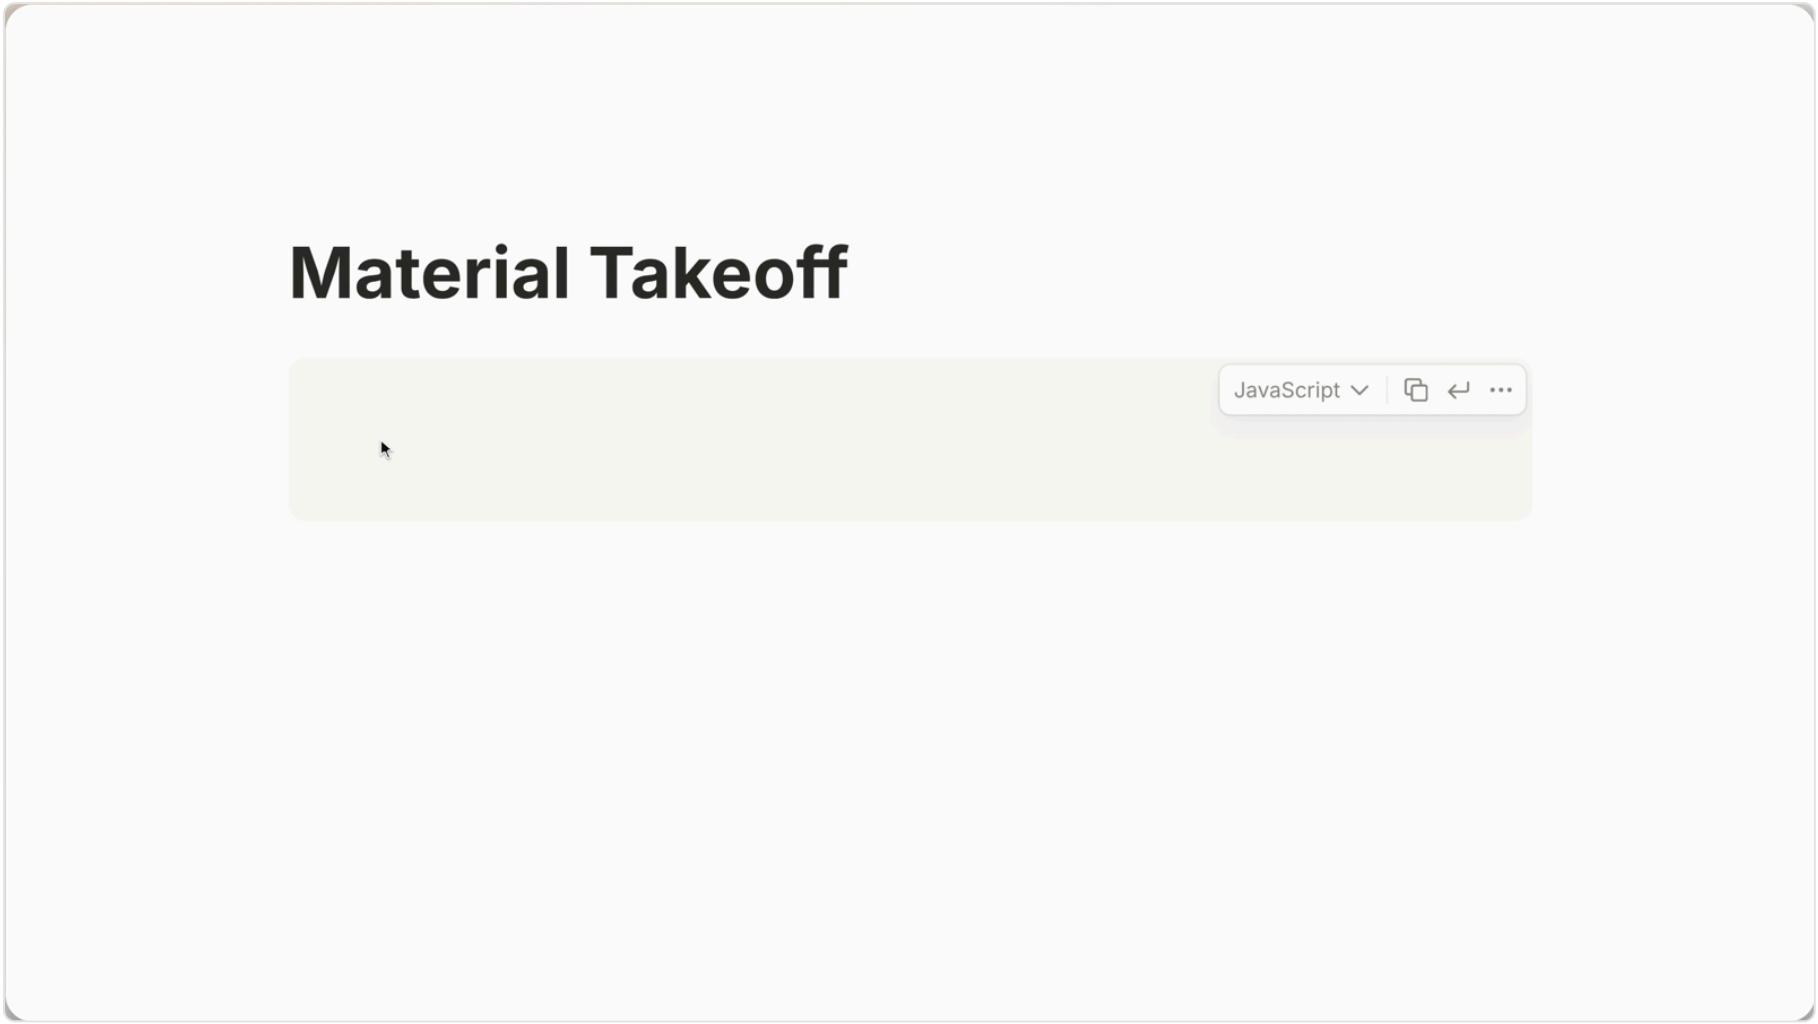

Put your cursor on the empty line where it should go.

Step 2 of 3

Type three backticks

Notion makes a code block. Text inside stays exactly as typed.

Step 3 of 3

Type inside the block

Pick a language from the menu at the top right of the block if you need highlighting.
