NOTION HOW-TO

How to add a code block

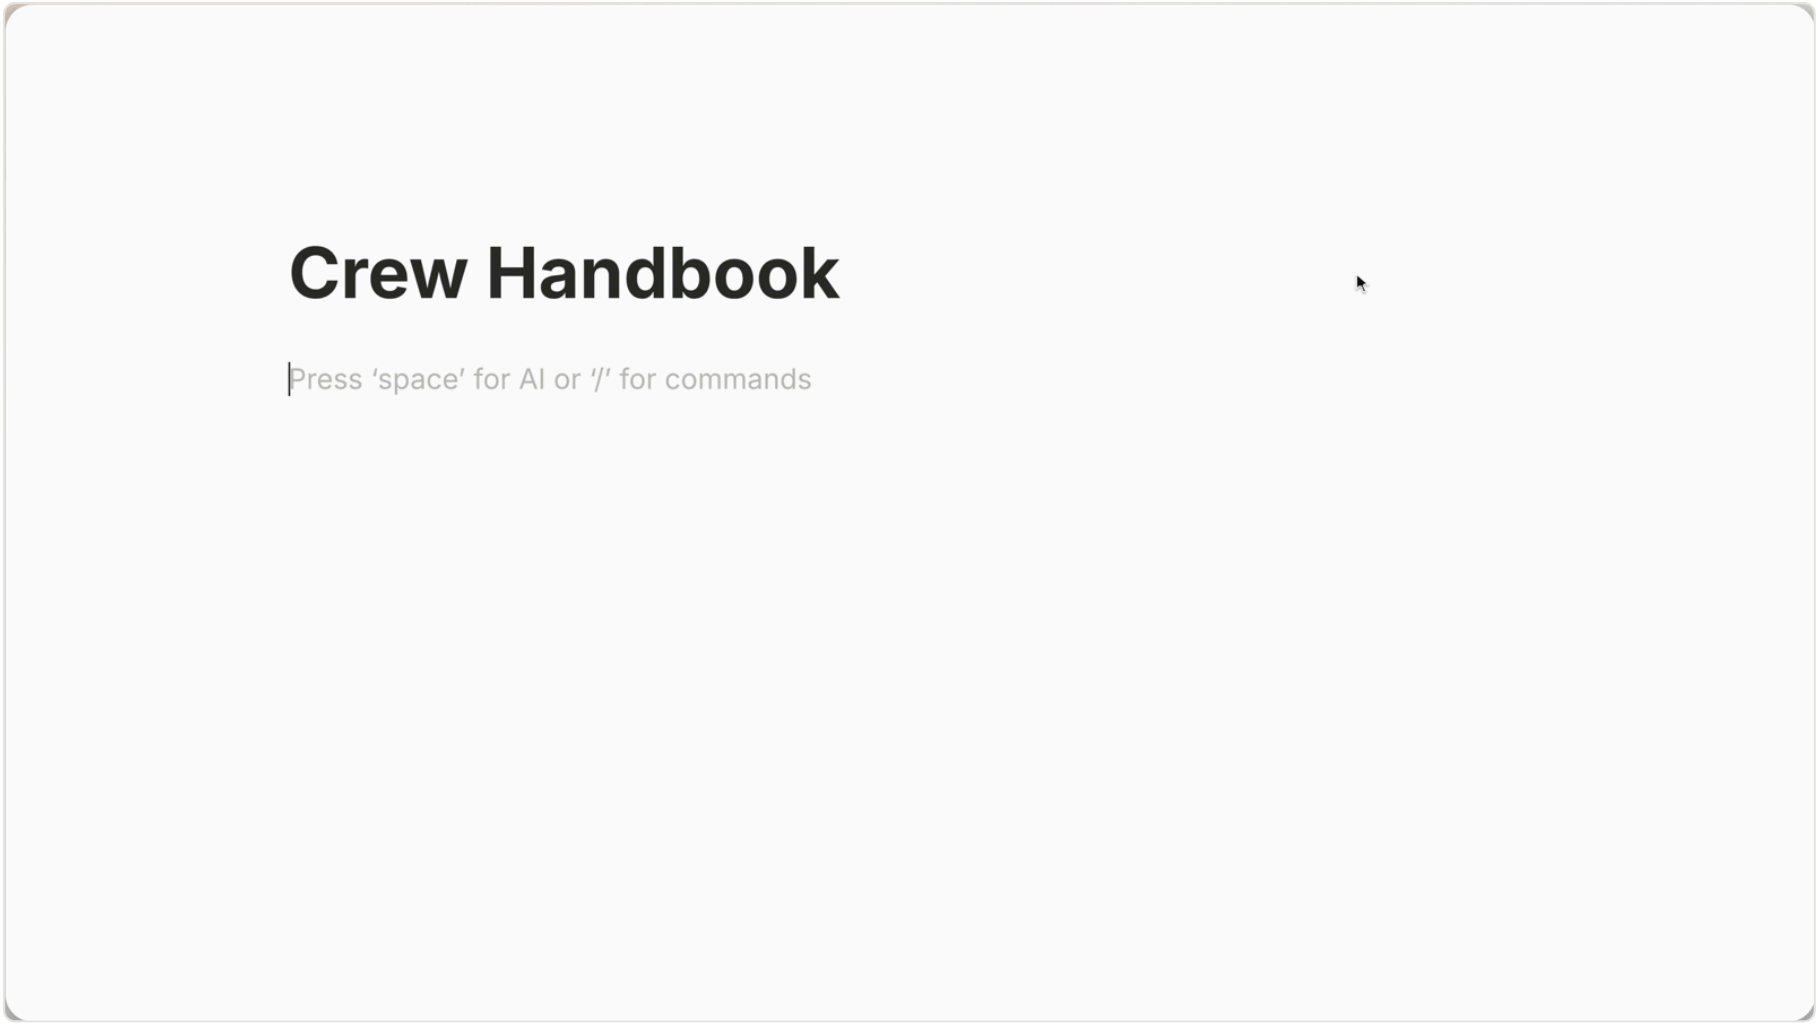

1. Click below the page title
2. Type three backticks
3. Click inside and type or paste the exact text

3 steps. Watch the video or a step's GIF for the motion; this guide holds each step's result.

Step 1 of 3

Click below the page title

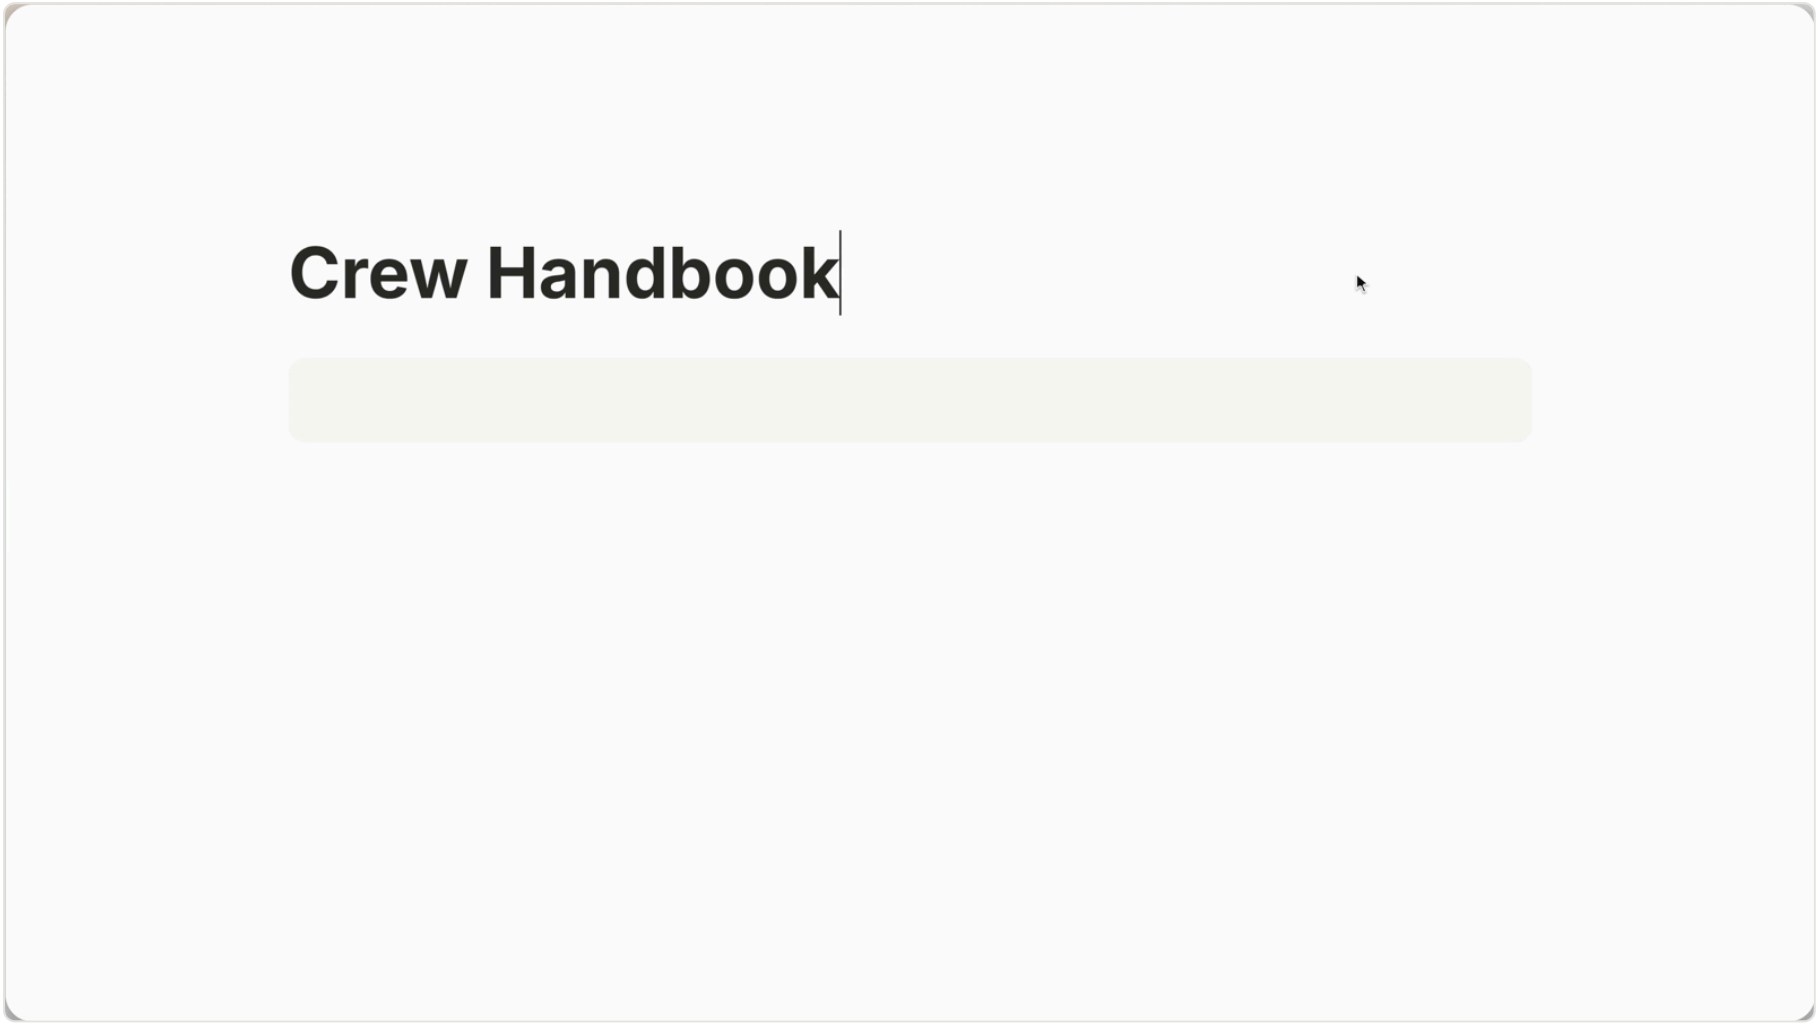

Put your cursor on the empty line where it should go.

Step 2 of 3

Type three backticks

Three backticks make a code block and put your cursor inside it. /code works too.

Step 3 of 3

Click inside and type or paste the exact text

Good for formulas, commands and settings someone will copy. Hover it for a Copy button.
