NOTION HOW-TO

How to use heading blocks

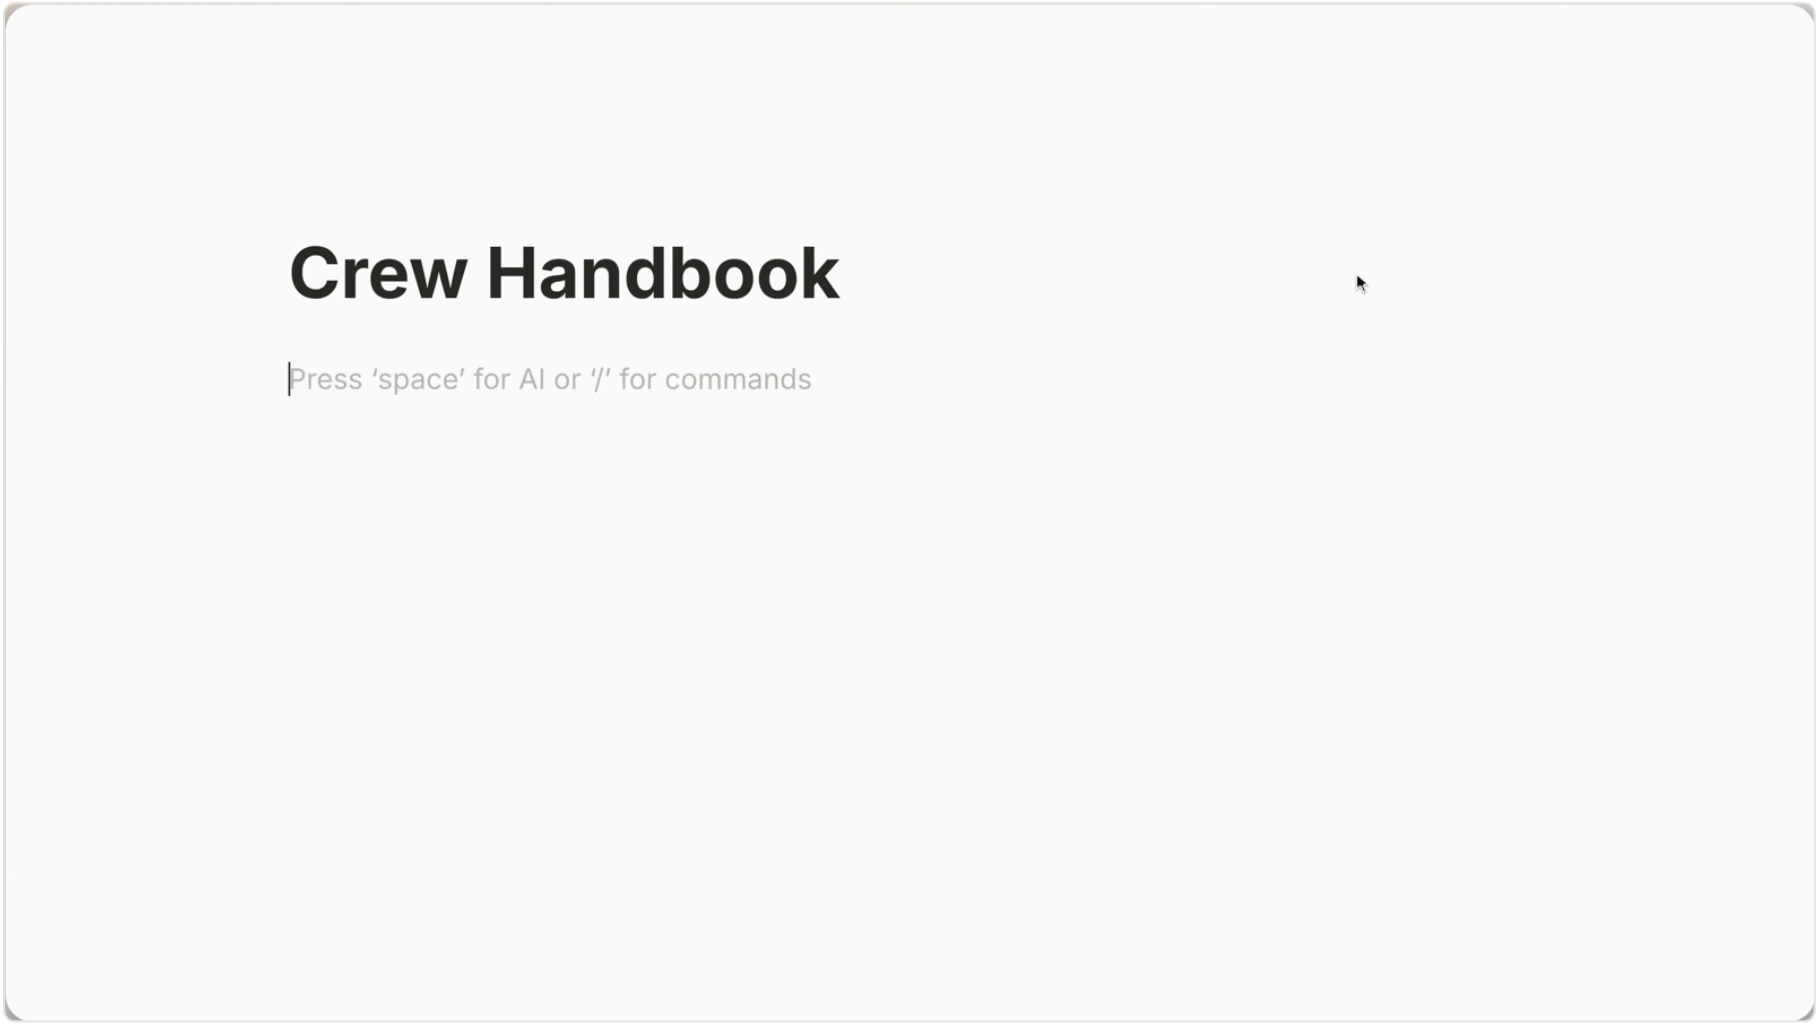

1. Click below the page title
2. Type /h1 for a large heading
3. Faster: type ## and a space
4. Press Enter and write under it

4 steps. Watch the video or a step's GIF for the motion; this guide holds each step's result.

Step 1 of 4

Click below the page title

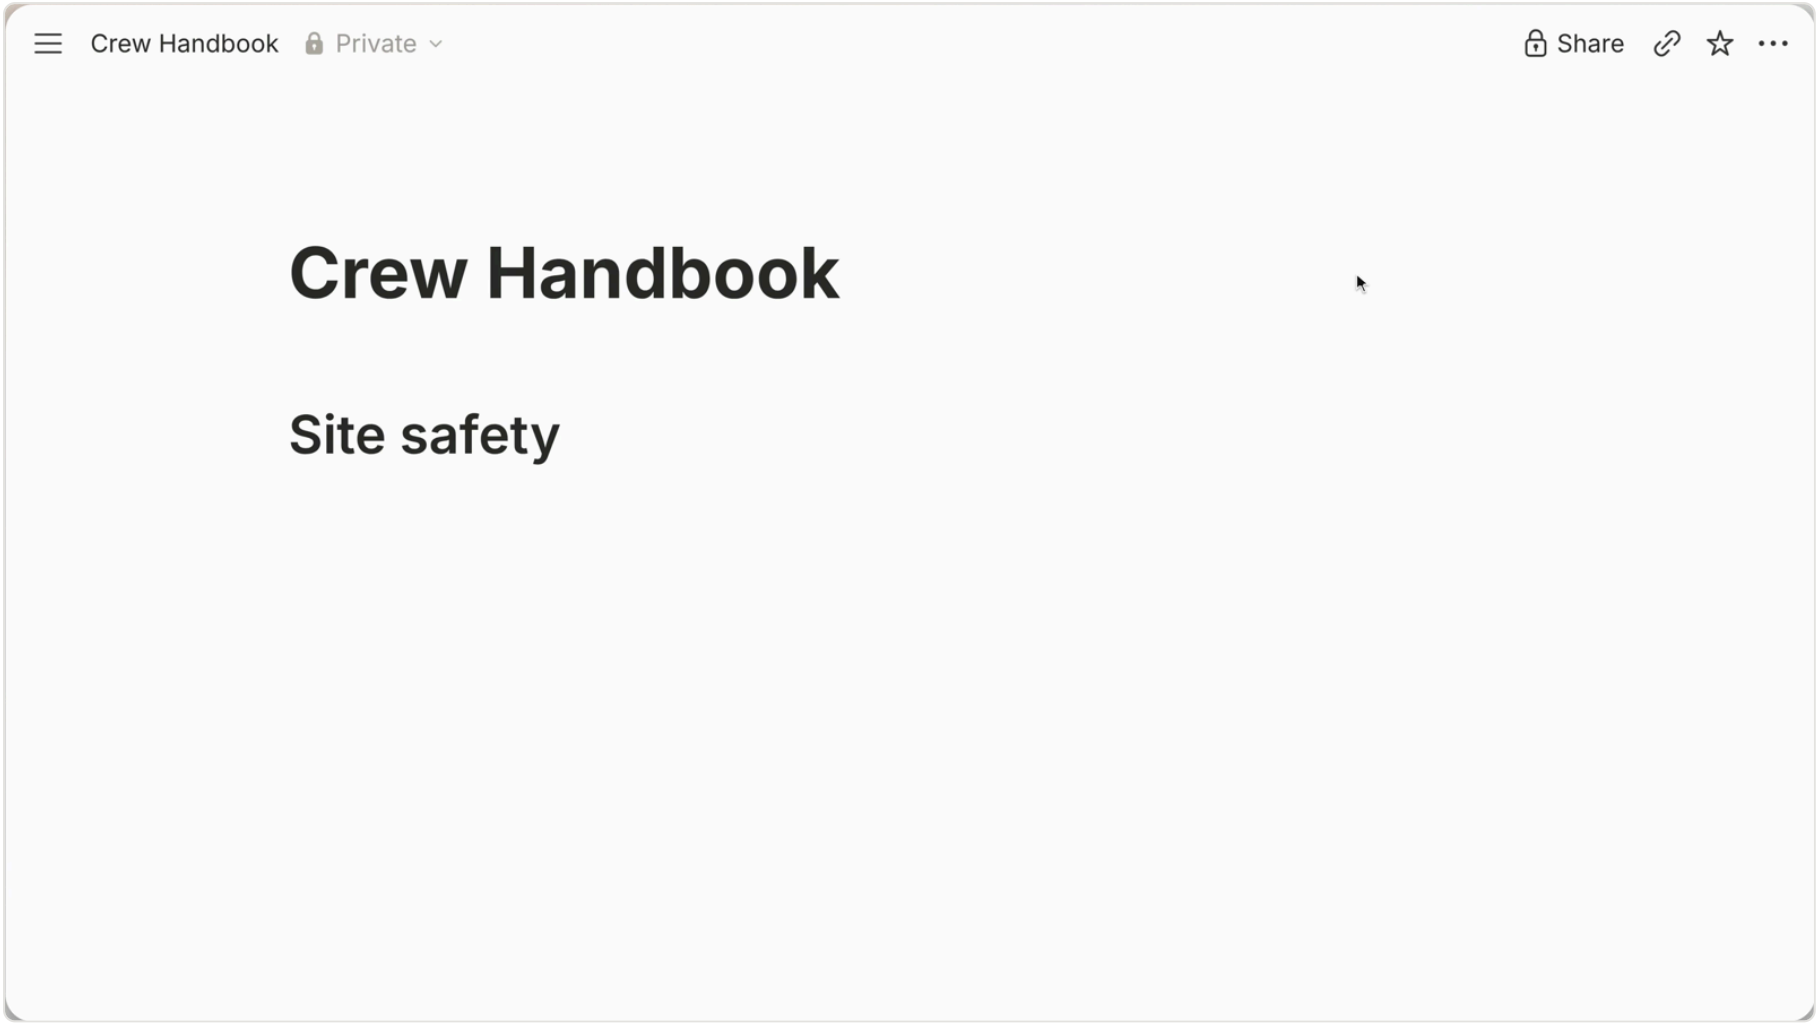

Put your cursor on a new line.

Step 2 of 4

Type /h1 for a large heading

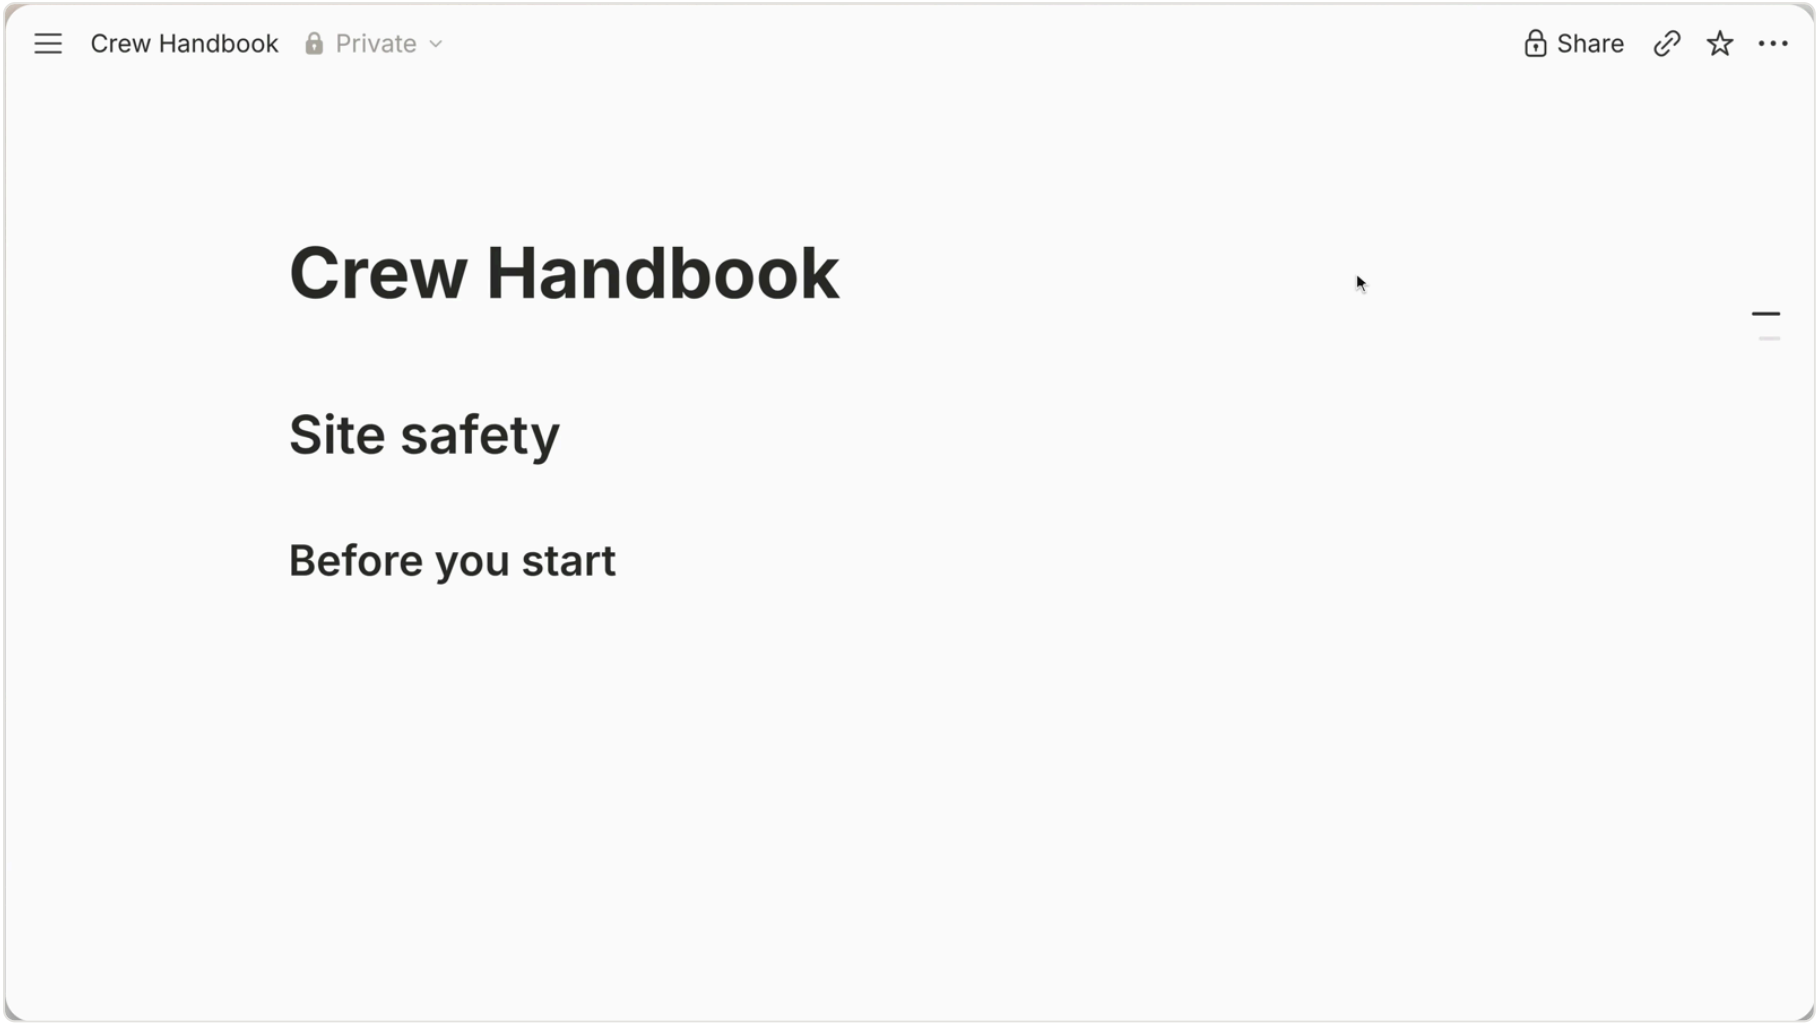

Heading 1 is the biggest. Use it for the main sections of a page.

Step 3 of 4

Faster: type ## and a space

One # makes Heading 1, two make Heading 2, three make Heading 3. The heading appears as you press space.

Step 4 of 4

Press Enter and write under it

After a heading, Enter starts a normal line of text.
